

Table A2. Turnover of party identification and party vote in Swedish election panels (per cent)

	Party Identification/Party Vote				Sum
	Stable/Stable	Stable/Variable	Variable/Stable	Variable/Variable	
1973–1976	78	7	4	11	100
1988–1991	69	10	6	15	100
2010–2014	59	16	12	13	100
2014–2018	55	16	9	20	100

Comment: All respondents indicating a partisan attachment have been classified as party identifiers. The analyses are restricted to voters with a party identification and who voted in the relevant pairs of elections. See Holmberg 1994.
