## POLITICAL SCIENCE & PUBLIC POLICY NEW TITLES, OCT – DEC 2024

### TEXTBOOK

#### Advanced Introduction to Political Trust

Kenneth Newton, University of Southampton, UK

*'Newton provides us with a comprehensive investigation of the theories, literature, and evidence on political trust and trustworthiness. His erudition, long experience, and well-reasoned judgment shine through every page. Newton concludes that trust is a symptom, not a cause, of political support. Yet, the study of trust generates data and arguments that enrich our understanding of interactions in multiple spheres and at multiple levels.'*

#### Fragmenting Cities

##### The State, Territorial Stigmatization and Urban Marginality

Troels Schultz Larsen and Kristian Nagel Delica, Roskilde University, Denmark

*'Fragmenting Cities is a bold and original contribution to the political sociology of urban marginality inspired by Pierre Bourdieu and grounded in a deep historical case study of the making and unmaking of the so-called "ghettos" of Denmark. It is packed with sharp observations, smart theorizing and lucid policy elaborations reaching far beyond its national borders: in short, a must-read for serious students of the neoliberal metropolis.'*

**A World History of Political Thought**

Second Edition

J. Babb, University of Tokyo, Japan

Acclaim for the first edition:

*'This is an amazing book. It is a wide-ranging and often fairly detailed survey of political thought around the world that genuinely takes a global standpoint. It is not that the Western tradition is front and center and then occasionally other views enter; the author engages with the various traditions on their own terms and puts them side by side. There is no book out there that is remotely like this. The fields of political theory and political philosophy will benefit enormously from having this book available.'*

**Re-imagining Public Leadership in a Post-pandemic Paradigm**

However we lead in a rapidly changing world where public services face multiple and overlapping crises, and leadership must evolve to adapt to this C21st context. The research book, edited by Stephen Brookes, is contemporary in its context and looks forward to what will succeed in the future as well as reflecting upon the lessons of the past.
